February 28, 2022

Dear Warren Glen Parents/Guardians,

On February 25, 2022, the Center for Disease Control (CDC) announced that the requirement for wearing of masks on buses or vans operated by public or private school systems, including early care and education/childcare programs has been lifted. **The New Jersey Department of Health recommends that school districts continue to require masking on buses until March 7, 2022.** If there is an uptick in the COVID Activity Level Index, the Department of Health will reevaluate the use of masks or other precautionary measures.

As of March 7, 2022 the Warren Glen Academy will have masks as an option in school as communicated in a previous letter, and on the bus/van as well. We anticipate transportation companies will abide by the CDC guideline.

Sincerely,

Dr. Randy Pratt  
Executive Director
