

At Warren Glen Academy, we strive to help your students, excel towards realizing their own successes.

We are blessed with a team of dedicated educators who are sincerely passionate about working with and helping your children achieve their full potential.

Here's What's New and Exciting at Warren Glen Academy in April

We are exceptionally proud of our middle and high school classes who are competing in a Stock Market competition game.

Each student begins with the same amount of money in their account to start the game.

Students research all the stocks that they are buying and selling.

They investigate multiple websites to research their companies that they will invest in.

This online simulation of Global capital has prepared nearly 20 million students for a financially independent future.

Presently there are 726 teams participating in the game, with our middle school class as of March 28, 2025, holding third place.

Our high school students had a fulfilling "Jet" trip to ABE International Airport, where they experienced career opportunities that they could avail themselves to upon graduation.

The High School Class along with support staff have begun their work on our school garden which yields vegetables and flowers that we hope to sell at our future country market stand.

The High School Class has also cultured a mason bee colony that are super pollinators and are fantastic for the environment.

In two weeks, our Warren Glen Academy video game competition will begin with students working on games from starting screen to finish.

Level 1 will begin fidget spinner 3 – D print construction

Level 2 will begin a video menu project with power point

Level 3 will prepare a debate on intellectual exclusivity regarding video games and technology. T

We had a hugely successful presentation by Ben Hartranft who is a dynamic speaker and advocate for individuals with autism, emotional and behavioral concerns.

Ben spoke to a group of special needs educators from different school districts throughout the county.

Ben was diagnosed with autism at the age of 2.

Ben talked about his growth, his struggles, and his successes throughout his life illustrating that even though we are all different as Ben says, "as a rainbow", "we need to build a community of inclusion and acceptance focusing on kindness for all".

We had a fun week of Dr. Seuss activities where student and staff wore and read Dr. Seuss stories wore crazy hats, and pajamas, and ate green eggs with ham.

We had a special treat listening to the “crazy” music provided by the Junk Jam Band Assembly through “Young Audience Art for Learning” organization.

This band of musicians creates music with recycled and discarded junk found anywhere.

We also welcome a new staff member, Lauren Pannelle who is working with our elementary students.

We joyously welcomed back our school nurse Joan Holland.

Finally, and most exciting, we congratulate our students of the month - Rocco Lomanto in level 3, Keving Synder in level 2, and Jacob Wieser in level 1.

Thank you for supporting and celebrating our student and school successes at Warren Glen Academy.

Fran Corl – Executive Director
